

# OWENS NUTRITION MINERAL AND FEED BUCKETS

## Special Features:

### All Feed buckets contain:-

- High Omega 3 Salmon Oil

### The Life Guard Range contains:-

- High quality protein (soya)
- Protected Fat
- Lactose – a source of rumen degradable energy to improve dry matter intake
- Agrimoss – a rich source of mannan oligosaccharides which:-
  - Block the attachment of pathogens in the gut
  - Encourage the growth of beneficial intestinal microflora
  - Improve absorption and quality of colostrum
  - Improve the immune system

Owens Nutrition Sweetlick buckets supply all the supplementary needs of essential micronutrients and are presented as a highly palatable convenient product.

Highly concentrated in terms of vitamins and trace elements, the molassed mineral bucket also provides quantities of major minerals.

In addition to the supply of supplementary needs of micronutrients, energy buckets also provide for possible shortfalls in protein and energy.

All products are available as 20kg or 100kg buckets.
